About the Game

Bucket List is a card drafting game about collecting the places you've visited, the creatures you've spotted, and the wonders you've seen. Every card has a checkbox - tick it off if you've really been there or spotted it in the wild, and watch your personal bucket list grow with every game you play. Draft cards and build a shared tableau, scoring points for runs of matching symbols.

Features

- ✓ A living keepsake - tick off every card you've seen and build a personal record.
- ✓ Beautiful artwork - stunning illustrations make every card a miniature collectible.
- ✓ An elegant spatial puzzle - line up matching symbols to score.
- ✓ Learn as you play - every card has fascinating facts about the subject.
