meets Calico,
with cakes!

About the Game

Fancy That! is a kawaii tile-placement game of afternoon tea for 2-4 players. Each turn, sweep tiles from the shared market by choosing a row or column and declaring a colour or an ingredient - then place them on your personal board to build patterns and claim patisserie reward cards. Every tile you remove to claim a card joins your scoring pile as an end-game multiplier, creating a delicious tension!

Features

Gorgeous on the table - kawaii cards and colourful tiles make every game a feast.

Deep strategy, gentle rules - one action per turn masks a real tactical puzzle.

Match now or score later? - every tile claimed is torn between your pattern and scoring pile.

Never the same tea twice - variable cards and shifting tiles keep every game fresh.

How to Play

Take Tiles

Choose a row or column, then take every tile of one colour or ingredient.

Place Tiles

Arrange tiles on your 5x5 board to match the patterns on patisserie cards. Cupcake tokens let you reposition.

Claim Patisseries

Complete a card's pattern and claim it, then remove one tile from your board the was used to match.

Score

Removed tiles are end-game multipliers for the cards completed.
