## About the Game

When the world's biggest pop culture convention opens its doors, rival fan clubs have one goal: get closer to their favourite celebrities than anyone else. This euro-style game challenges players to spend coffee wisely, plan efficient routes, and intercept celebrities before they vanish - you need to be in the right hall at just the right time, but be sure to queue early for the hottest celebs.

## Features

Tight resource management. Every move needs coffee, and running dry costs you the selfie.

Dynamic queuing - join a celebrity's queue early or risk losing your spot to a rival fan

Converging timelines - workers, rivals, and celebrities all move across a shared floor.

Upgradeable workers - Add a physical hat to your meeple - VIPs get the best selfies!

## How to Play

### Join the Queue

Get to a celebrity queue early - only the fans at the front will score the selfie and the most points.

### Follow the Stars

Celebrities move on a visible schedule. Plan to meet at their next stop and be there waiting.

### Upgrade Your Fans

Level up your workers to unlock better abilities and bigger scoring opportunities.

### Manage Your Coffee

Every action costs coffee - spend wisely or grind to a halt. Get new coffee every hour.
